ADVANCER® NSIC AND SILIT® SKD SISIC

Products have been a preferred solution for high accuracy CMM and Motion Control equipment for over a decade.

Saint-Gobain Performance Ceramics & Refractories offers Silicon Carbide products, based on Siliconized Silicon Carbide (SiSiC) and Nitride bonded Silicon Carbide (NSiC) materials, to deliver high accuracy and speed in industrial metrology, such as CMM and Motion Control Equipment.

Silicon Carbide offers many advantages over traditional ceramic materials.

BENEFITS
