

SAINT-GOBAIN PERFORMANCE CERAMICS & REFRACTORIES

LO-MASS[®]

SUSTAINABLE KILN FURNITURE SOLUTIONS

MATERIAL CHOICE

LO-MASS®

THINNER, LIGHTER, STRONGER & MORE THERMALLY CONDUCTIVE

LO-MASS® solutions adapt advanced silicon carbide ceramic materials that offer significantly enhanced material characteristics as compared to traditional heavy mass kiln furniture systems.

BENEFITS

Our customers have substantially improved operating efficiencies by replacing cordierite kiln furniture with LO-MASS® advanced silicon carbide kiln furniture systems (N-Durance® support posts and setter plates, Silit® SK support and stringer beams)

Sustainable - reduced refractory mass

Safety - structural stability

Lower energy consumption

Improved fired product quality

Higher productivity

Faster ROI

ADVANCED SILICON CARBIDE MATERIALS DELIVER VALUE

Our engineered ceramic products are custom designed, co-developed and manufactured for industrial heating applications. They deliver value in your toughest challenges related to efficiency, throughput, emissions and maintenance.

HEAVY MASS CERAMIC (CORDIERITE)

57%

- Low productivity
- High energy consumption

FEWER PRODUCTS PROCESSED

LONGER FIRING CYCLES

- Non-uniform loading surfaces
- Warpage

LOWER SERVICE LIFE

FREQUENT REPLACEMENTS

HIGHER PRODUCT DEFECTS & REWORK

SAINT-GOBAIN'S LO-MASS® SOLUTIONS

Our engineers collaborate with you to design custom kiln furniture systems for specific applications and automation requirements. LO-MASS® engineered components include setter plates, support posts & stringer beams, post mounting shoes and structural tie systems. Numerous other custom shapes and engineered assemblies available to provide flexible setting configurations, decreased setup time and system safety & stability.

LO-MASS® - XXL PLATES

Our XXL plates are offered at a maximum size of 1250x900x10 mm.

BENEFITS

1. Increased setting space
2. Further reduction of structural supports and kiln furniture
Eliminate joints/seams underneath product
Flatness retention over large setting area

System with STANDARD PLATES

System with XXL-PLATES
